Manage all your legal matters in one place

See what Lupl can do for you

A better way to work with your lawyers.

If you work regularly with lawyers, you probably know that tracking, organizing and collaborating on documents and legal matters can feel harder than it needs to be. That's why we built Lupl.

Organize your matters.

Got more going on than you know what to do with? We hear you! Lupl is the easiest way to organize your matters and bring order to the chaos.

Collaborate with colleagues and outside counsel.

Lupl is an all-in-one toolkit for collaboration, whether that's within the legal department, with business colleagues, or with your outside counsel.

Know what's happening.

Lupl gives you a real-time, 360-degree view of who is doing what and how it's going, so you and your team are always in the loop.

Integrate your company's tools.

Lupl's plug and play platform lets you connect your organization's existing tools, like Slack, Google Drive, SharePoint, OneDrive for Business, DocuSign, and much more.

The screenshot displays the Lupl dashboard interface. At the top, it says "Good Morning, Ariana" and "Today looks busy, but you've got this!". A "Create Matter" button is visible. The main dashboard features several widgets: "Active Matters" showing 12 total matters (10 On Track, 0 Off Track, 1 At Risk, 1 On Hold); "Matters With The Most Open Tasks" with a bar chart for Project Blue Book M&A, Northside Plant Acquisition, LemurUp General Privacy, and Alphabyte Debt Claim; "My Upcoming Tasks" (6) and "@Me Today" (2); "My Team" with a bar chart for team members; "Recent Documents" including Team Summary.docx and Shareholders' Agreement v1.docx; "Knowledge Hub - Matter Templates" for Legal Project Management; and "Integrations & Bridges" showing logos for DocuSign, Microsoft, Google, and LexisNexis.
