

# lupl

## Move Legal Work Forward

See what Lupl can do for your law firm

# Supercharge your workflows, dazzle your clients, and connect your tech stack.

Move over, portals. There's a new way to collaborate in the firm and with clients.

## Dazzle your clients

Win new work and build better client relationships with a simple, intuitive “shared desk” experience for clients.

## Know what's happening

Lupl gives you a real-time, 360-degree view of who is doing what and how it's going, so you and your team are always in the loop.

## Connect your tech stack

Lupl's plug and play platform lets you connect your firm's existing tools – it's like a force multiplier for tech adoption in your firm.

## Give your team superpowers

Move your work forwards with tasks, status reporting, collaboration tools and actionable knowledge templates.

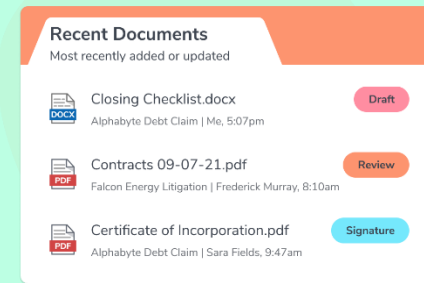

***“Lupl transforms  
how we work  
within the firm  
and with clients.”***

Executive Partner, International Firm

# Say goodbye to clunky email attachments

## Document Management & Collaboration

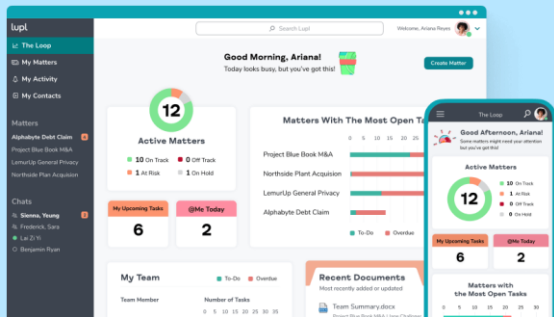

- Huge file size limits. Securely share documents inside and outside the firm.
- Syncs with your firm's DMS....or use Lupl Drive.
- Integrated comparison, document scanning on mobile, and eSignature.

# Always know who's doing what and when

## Task and Project Management

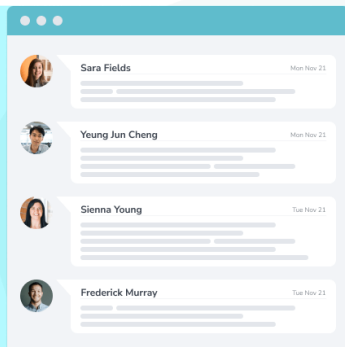

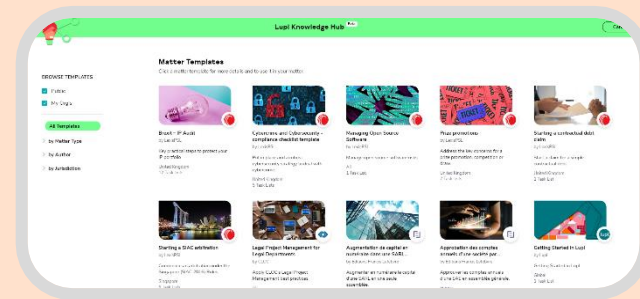

- Real-time, 360-degree visibility of status.
- Assign work to your team, colleagues, and allow clients to self-serve.
- Always know what's on track, off track, at risk, or on hold.

# Never reinvent the wheel again

## Matter & Workflow Templates

- Pre-built matters with repeatable process and checklists. Fully customizable.
- Drive the right process in the firm and with clients.
- Promote your expertise to potential clients in more than 30 countries.

# Secure client portal alternative

## Encrypted Messaging and Client Collaboration

- Communicate securely with colleagues, clients and co-counsel.
- Encrypted and sector secure, with privilege protection baked in.
- Shared inbox for every matter.

## A better way to work with clients.

Lupl was built with thousands of hours of input from clients. Become a seamless extension of your client's team with a shared workspace. Collaborate on documents, communicate effortlessly and report status without a thousand emails.

## Up and running in seconds, not months.

Unlike portals, which can take weeks or months to configure and implement, Lupl is up and running for your firm in less than a minute.

### Maximum adoption, minimum effort.

So long, shelfware. Lupl's simple, intuitive interface and design requires no training, ongoing configuration or maintenance.

***“Adoption has grown faster than anything we have experienced.”***

Managing Partner, International Firm

# Sector-grade security, privacy, and compliance.

Lupl was built from the ground up with security, privacy, and legal sector compliance by design. The platform is trusted by major global law firms, financial institutions and more.

## Built with law firm CISOs.

From its architecture to its operations, Lupl has benefited from the support and input of Chief Information Security Officers at major international law firms throughout its development.

## Trusted security infrastructure and controls.

Enterprise-grade encryption, sophisticated physical and logical security controls, and trusted cloud infrastructure powered by Microsoft. SOC 2 and CSA STAR® certified.

## Level up your record-keeping compliance.

With Lupl's DMS integrations, you can choose to have documents live in your firm's DMS. When the matter is closed, all the important matter-related data, including communications, are auto-saved into the DMS.

## Aligned with GDPR and international privacy best practices.

With EU data centers and strict technical and organization privacy measures, Lupl is ready to support law firms with their privacy and data protection compliance responsibilities.

# Infinite use cases.

Here are just a few ways the Lupl community is putting Lupl to work...

## Client collaboration

Build better and more lasting client relationships while managing security and compliance.

## Multi-firm collaboration

Work seamlessly with other law firms to coordinate multi-territory transactional, regulatory or disputes matters.

## Corporate or venture deals

From DD to closing, use Lupl to coordinate all the inputs that go into corporate or venture deals.

## Legal radar

Use Lupl to keep clients in the loop on evolving regulatory developments.

## Commercial disputes

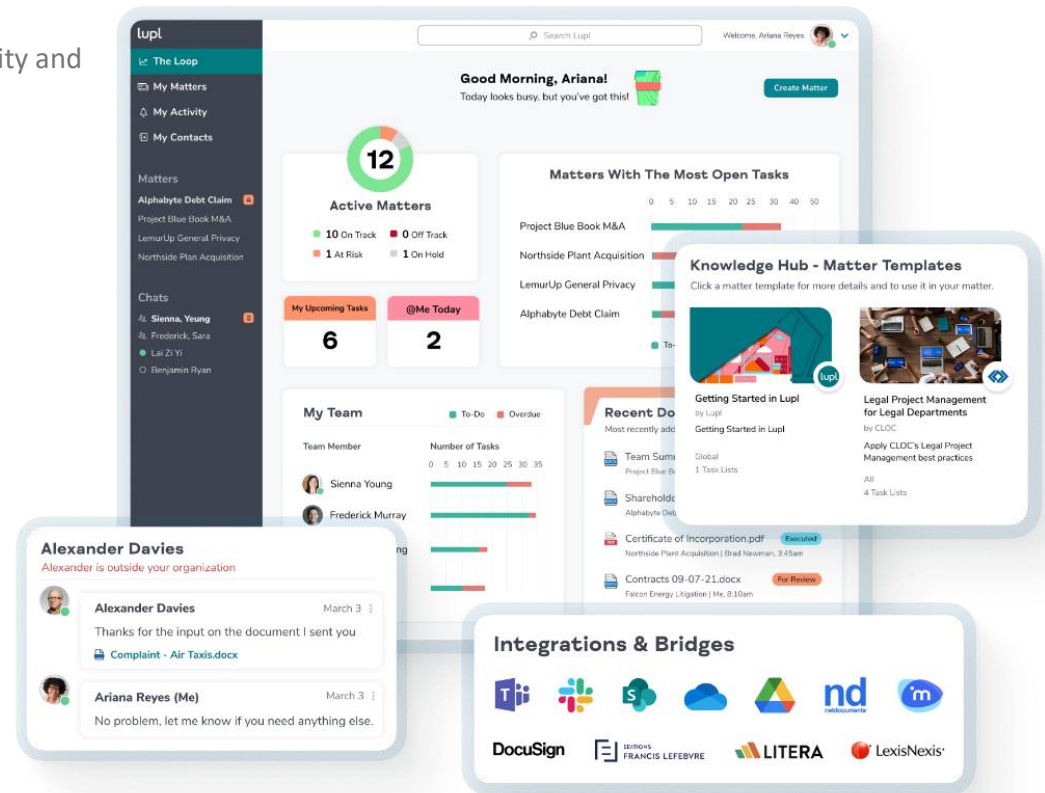

Manage all the moving parts of an evolving dispute.

## Secure, cross-org chat (auto-saved to the DMS)

Working between organizations doesn't need to require a thousand emails or IT configuration. Secure, cross-org chat that gets auto-saved to the DMS.

## Matter templates

Done reinventing the wheel? Build templates for common work types to put knowledge to work...or open up firm-branded templates to thousands of current and potential clients to demonstrate your knowledge and expertise.
