ONEVAULT

a complete platform for data loss protection | compliance archiving | business continuity | data protection | incident investigation | e-Discovery |

DONOMA

PRESERVE & PROTECT THE DATA YOU NEED TO PROTECT YOUR FUTURE

OneVault is a data loss prevention & archiving solution that protects your business while reducing risk, complexity and cost.

Email | Corporate IM | Team Chat | Video Conference Recordings | Voicemail |

Streamlined & Centralized
Automatically ingests data from multiple data sources and applies your organization's retention policies.

Fast Intuitive Data Search
Our interface makes it easy to search across all your data with results in seconds. Meet deadlines for compliance audits and e-Discovery requests with confidence.
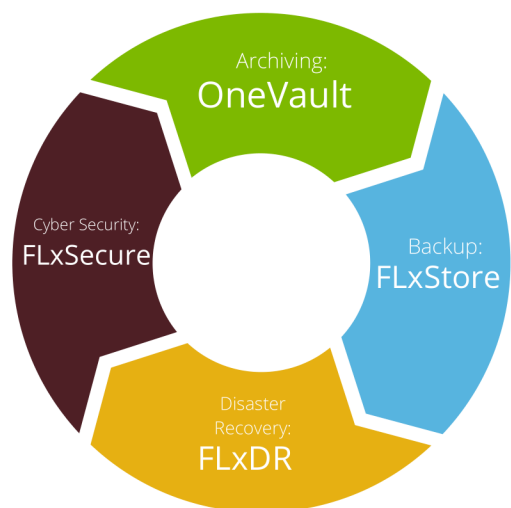

Data Protection & Continuity
OneVault immediately retains and encrypts your data. When deployed in the cloud, it adds an additional layer of data security while remaining accessible 24×7.

Rapid Incident Assessment
Precise and speedy searching delivers the facts needed to make informed decisions and solve problems before they grow.
